

# BRASS BALL VALVE

**2 Piece-Solder X OD Connections-200 WOG**

## Features

- .Double O-Ring Stem
- .Teflon seal,Chrome plated no lead ball
- .100% leak tested
- .Dezincification resistant brass alloy
- .Wanted surfaces contain less than 0.25% lead content

Approvals:

**CUPC list (1/4",3/8",1/2",5/8")**

**NSF List (1/4",3/8",1/2",5/8")**

**AB1953 List (1/4",3/8",1/2",5/8")**

## Material Specifications

No	Part	Materials
1	OD NUT	Brass
2	Gasket	H60
3	Bonnet	Brass-C46500
4	Body	Brass-C46500
5	Sealings	Teflon
6	Ball	Brass-C46500
7	Stem	Brass-C46500
8	O-Ring	EPDM
9	Screw	A3
10	Handle	Zinc

The ball valves did not leak during 82°C water temperature and 0.86 Kpa for 30 minutes.

The Ball Valve were subject to a life cycle test for 5,000 cycles

No leakage applying a hydrostatic pressure of 300 psi at 23°C, maintain the pressure for 5 min with the valve closed.

Pex Tubing complied with the dimensional requirements ASTM F1807 or CSA B137.5

Ball Valves and parts intended for the delivery of potable water complied with applicable requirements of NSF/ANSI 61.
